AUTHOR INDEX

(A) indicates abstract; (P), patent; (R), review; and (TN), Technical Note

ABEL, H. Coloring Leather (P) 394
ADLER, J. B. The Production of Differential Dyeing Effects on Fur Skins (A) 127
AFANAS'EV, A. V., F. I. BLOSHTEIN, M. S. PETUKHOV, M. L. MELAMUD, M. YA. KUTOVSKII, and V. D. SEROVA. Concentrated Pigment Dispersions for Leather Finishing, Using New Synthetic Binder Replacing Casein (A) 131
ALEKSEENKO, V. I. Basic Trends for Establishing Leather Substitutes for Shoes (A) 128
———, and A. P. NIKIFOROVA. Some Properties of New Synthetic Rubbers (A) 129
———, and B. V. STARKH. Some Features of Plasticized Polyvinylchloride (A) 225
———, and O. I. VORONTSOVA. Combination of Polyamides with Other Polymers (A) 132
ALEXA, G. Contribution to the Study of Combined Formaldehyde-Chrome-Vegetable Tanning (A) 289
———, G. CHIRITA, and A. CHIRITA. Extra-Rapid Tanning Process for Sole Leather (A) 459
ALEXANDRESCU, G. Considerations on Leather Dyestuffs Produced in Romania (A) 149
ALTMAN, K. I. *See* ERNST, H.
AMIRDZHANOV, L. A. Tanning Process (P) 541
ANDERSON, T. R. Tanning (P) 298
ANDREWS, R. S., and M. DEMPSEY. Changes in Fiber Structure of Ox Hide on Enzyme Unhairing and Tanning as Sole Leather (A) 233
———, and ———. Some Investigations into Methods of Unhairing. I. Lime-Sulfide Processing (A) 233
ANWAR, R. A., and G. ODA. Structure of Desmosine and Isodesmosine (A) 124
APPLETON, J. *See* TU, S. T.

ARBAND, P. Drying Under Vacuum and Its Adaption to Various Manufacturing Processes for Leathers and Skins (A) 124
ARD, J. S. *See* FILACHIONE, E. M.
ARMAGANYAN, A. S. Polychloroprene Latex LNT-1 (A) 133
ARMSTRONG, W. G., and H. J. HORSLEY. Isolation of Fluorescent Components from Ox-Bone, Human Dentine and Gelatin (A) 233
ARONSON, R., F. M. SINEX, C. FRANZBLAU, and D. VAN SLYKE. The Oxidation of Protein-Bound Hydroxylysine by Periodate (A) 657
ASQUITH, R., and D. PARKINSON. Morphological Origin and Reactions of Some Keratin Fractions (A) 599
AXILROD, G. *See* ROTHBERG, S.

BABICH, I. YA., A. YA. SHAPIL'SKAYA, and L. G. VOLOSHINA. Hide Substance Determination in Leathers Filled with Hexamethylene-Tetramine — Preparation KU — and by Other N-Containing Compounds (A) 463
BADEN, H., S. ROTH, and L. BONAR. Fibrous Proteins of Snake Scale (A) 387
———, and G. SZABO. Cutaneous Melanocyte System of the Indigo Snake, *Drymarchon corais* (A) 235
BÄDER, E., and K. G. KOTTENHAHN. Treatment of Leather (P) 299
BAILEY, A. J. *See* FESSLER, J. H.
BAKERMAN, S., and B. HARTMAN. Titration of Human Skin Collagen Extracted with Acid (A) 386
———. *See* HARTMAN, B. K.
BALAKRISHNAN, M. *See* GHOSH, D.
BALEKJIAN, A. Y. *See* HOERMAN, K. C.
BALIAN, G., and J. BOWES. Composition of Membranous Tissues Obtained from Tendon and Skin (A) 651
BALIF, G. Some Aspects of the Control and Employment of Microbiological Processes in the Tanning Industry (A) 658
BANGARUSWAMY, S., T. S. RANGANATHAN, and A. GANESAN. Comparative Study of Bag-Tanned Leathers from Various Regions of India (A) 292
BANKWITZ, F. R. Tanning Method (P) 390
———. Producing One Sided Dyed Leather (P) 82
BARAT, S. K. Some Thoughts on Standardization of Indian Slaughter Houses (A) 292
BARLOW, T. W. Method of Making Synthetic Suede and Product Thereof (P) 534
BARMINA, K. A. Improvements in Dressing Muskrat Skins (A) 133
BARTZ, A. A. Werner Chromium Complexes and Methods for Their Preparation (P) 151
BASHARIN, A. A. *See* KUPTCHENKO, L. D.

BASSETT, J. A., and M. H. BATTLES. Scuff Resistant Leather (P) 77
BATEY, T., and T. WILLIAMS. Trace Element Content of Some Lining Materials (A) 599
BATTLES, M. H. *See* BASSETT, J. A.
BAUDIN, J. M. Protection of Leather Surfaces (P) 82

- Status of the Association 578

ALCA-ASTM Joint Committee Meeting 53, 579

Alkenyl succinic acid, effect on water repellence 162
Alkylacrylate dispersions 710
Aminoplasts, hardenable 159
Animal hair, coloring 763
Animal hides
dehairing 305
process for obtaining oil from 817
Animal skins
dehairing 542
utilization of proteins 133
waste disposal 80
Aqueous dispersion, stable 823
ARD, J. S., Biography 437
Assays of bating enzymes 564
AUSTIN, W. E., Obituary 577
Babul pods, source of tannin 454
Bag-tanned leathers 292
Bating 287
Bating agents, effectiveness 713
Bating enzymes, assays 564
Bellies, better utilization 284
BERG, N., Biography 694
Biological systems, water structure 68
BITCOVER, E. H., Biography 103
Book Reviews 465, 716
BORASKY, R. Biography 808
BOWES, J. H., Biography 279
BROWNE, K. W., Biography 694
Buffalo hides, slaughtered and fallen, comparison 454
BURTON, DONALD, Obituary 48

Cabretta leather, production 134
Cellular polymeric sheet material 152
Cements, latex 138
CHAKRABARTY, R. N., Biography 747
Chamois leather, cutting and finishing 81
Chamois tannage, processes of manufacture 125
Chamoising process, control 127
CHANDRA, H., Biography 747
CHOUINARD, A. E., Obituary 365
Chrome leather
from steer hide bellies 129
impregnated 666
properties, change during preservation 286

Chrome leather production, control methods 71
Chrome leather tanning, counter-current method 226
Chrome liquors 285
Chrome regeneration, from waste liquors 228
Chrome tannage 530
kinetics 125
Chrome tanning 78, 664, 665, 666
analytical techniques for stratigraphic analysis 447
modernization 384
Chrome tanning liquors
composition 612
reaction with hide substance 612
Chromic anhydride, reduction with cod-liver oil 231
Chromium
basic sulfates, chemistry of 487
determination in leather 712
Chromium complexes 151
Chromium salts, complexochemic transformation 144
Cod liver oil, oxidation by chromic anhydride and dichromate 459
Cole, R. L., Biography 575
Collagen
aggregation phenomena 455
ascaris cuticle 760
biosynthesis 456
cleavage with chymotrypsin 455
cross-links 386
degradation by metal-ion-H_2O_2 systems 258
degradation in leather 240
denaturation-renaturation of subunits 69
density, after dehydration by solvents 710
depolymerization mechanism 258
from human skin 386
collagen, from swim bladder of hake 813
helix-coil transition 760
hydrothermal shrinkage and ageing 387
incomplete hydroxylation of prolyl residues 813
influence of salts on hydration structure 68
interactions 145
modification by the Mannich reaction 398
native, action of proteases 596
production of strands or tapes 156
quantum aspects 69
rat skin, amino acid sequence 531

Collagen
rat skin, heterogeneity of α chains 455
reaction of tadpole collagenase 531
reaction with basic chromium sulfates 487
reaction with vegetable tannins 126
reconstitutable 609
reconstituted, ion binding 657
separating of α chains by free-flow electrophoresis 532
some problems of solution 68
stability, effect of position of pyrrolidine residue 531
stability of random coil 760
staining in methanol 124
thermal stability, correlation with serine 661
treating 395
treatment 610
turnover in calcified tissues 813
Collagen articles and dispersions, process of forming 533
Collagen and elastin hydrolyzates, single-column analysis 287
Collagen chains, cross-linking 68
Collagen-coated cellulose sponge 652
Collagen fibers
birefringence 653
bonding with apatite crystals in bone 652
covering sheath 70
friction of 97
in rat dentine 651
penetration through protective colloid 815
solubilizing 763
Collagen fiber material 299
Collagen fibrils
amino acid distribution 448, 768
assembly 656
from dinosaur bone 232
Collagen filaments, production of 546
Collagen film 152
Collagen fold, effect of pH 456
Collagen metabolism, effect of thorazine 233
Collagen models, polymers of tripeptides 70, 813
Collagen residue, radiocarbon dating 387
Collagen solutions, production 668
Collagen structures 83
irradiated by x-rays 147
Collagen subunits, identification by disc electrophoresis 228

Collagenase, tadpole 287
Collagenous articles 83
Collagenous gels, precipitation in salts 223
Collagenous protein, nematocyst capsules 388
Combat footwear 346
Compositions, for leather 306, 307
Condensation products, naphthalenesulfonic acid and formaldehyde 77
Connective tissues, structure 68
Curing methods 174
Czechoslovak leather industry 134

DEASY, C. L.
  Biography 279
  Receives Alsop Award 590
Deliming, dry 288
Deliming skins and hides 605
Deodorizing Agent 664
Depilating 602
Depilation
  biological 73, 706
  with ClO_2 299
Dermatitis, clothing 660
Desmosine, structure 124
Dicyandiamide resins, properties 146
DONOVAN, R. G., Biography 575
Dressings and finishes, analytical examination 759
Drum, dry tanning 230
Dryers, tunnel 145
Drying, under vacuum 124
Drying device 156
Drying kinetics 290
Drying leather 817
Drying oils, refractive index in analysis 74
Dye absorption, theory 600
Dye assistants, quaternary ammonium 76
Dyed leather, one sided 82
Dyeing process 80
Dyeing, process in glove making 460
Dyeing of furs, excessive chroming 711
Dyes
  azo 605
  color matching 655
  for brown leather 395

Dyes
for leather 606
metal complex monoazo 391
metallisable monoazo 157
reactive azo 85
tetrazaporphin series 86
water-soluble disazo 85, 86
water-soluble reactive 84
Dyestuffs
azo 157
copper-complex compounds 392
monoazo 156, 394, 396
water-soluble reactive 85

Effluent problems, effect of unhairing processes 234
Elastin, nucleation by 237
Elastin structures, biosynthesis 69
Elastins, calfskin and ligament differences in amino acid content 90
Elastoidin 292
Elongation of leather 296
Emulsions 84
Enzymes, in the beamhouse 389
review 656
Eucollagen, electrophoretic fractionation 232
EVERETT, A. L., Biography 45
EYE, J. D., Biography 191

Fat, stratigraphic distribution, and vapor phase chromatography 459
Fatliquoring, dry under vacuum 124
Fatliquors, improvement by sulfited oils 231
FEAIRHELLER, S. H., Biography 437
Fiber structure, changes on enzyme unhairing 233
Fibers, infrared spectroscopy without preparing sections 660
Fibrous proteins, from snake scale 387
Films, polyvinylchloride, stability 133
Finish, adhesion to leather, provisional test 126
Finishes
infrared studies 382
pigment 296
protective 543
water and oil repellent 764
Finishing, electron microscopic studies 383
Finishing leather 301
Finishing methods, Europe and U. S. 705

Fleshing machines 765
Flexometer, folding behavior 283
Flocking surfaces 390
Fluorinated carboxylic acids 160
Foot-and-mouth disease 650
Footwear
  combat 346
  microclimate 310
  water vapor permeability 310
Formaldehyde-chrome-vegetable tanning, combined 289
Formed collagen bodies, process 300
Furs
  dyeing 136
  preservative 395
  waterproofing 77
Furs and skins, treating 155
Fur skins, dyeing effects 127

GANDBHIR, S. S., Biography 575
Garments, protective 706
Gel filtration 661
Gelatin
  cleavage of cross-links with β-amino propionitrile 69
  fluorescent components 233
Gelatin and glue, Research Association Meeting 461
Gelatin systems, transitions 656
Glutaraldehyde
  bound, direct determination 507
  protein-bound, ultraviolet absorption 450
Glycosides, hydroxylysyl from collagen and human urine 761
Goran liquors, sludge formation 655
GRAEF, S. P., Biography 191
Grain cracks, reasons for 291
Grain, drawn, resulting from liming 596
Greases, water emulsifiable 703
GREIFENEDER, J. G., Biography 694
GRUBER, H. A., Biography 103
GUSTAVSON, K. H., 70 years of age 454

Hair and pelts, dyeing 608
Hair, cystine content 661
Hair removal, fine 181
HAPPICH, W. F., Biography 747
HEVENOR, C. L., Obituary 525

Hide materials, water binding 334
Hide powder, preparation 293
Hide quality, determination 654
Hide substance
determination in leathers containing urea 135
reaction with chrome liquors 612
Hide substance determination, effect of urea-hexamethylenetetramine 226
Hides
bating process 820
brine-curing 290
dehairing 302
enzyme unhairing 72
pickling 821
protecting 77
salted, curing methods 174
structural changes from freezebranding 445
treating 79
treatment, N,N'-Bis (alkoxymethyl) 299
unhaired, pickling 666
Hides and leather, protection against ultra-violet light 538
Hides and pelts, unhairing 664
Hides and skins
dehairing 301
depilating 537, 663
drying 80, 153
influence of live stock production 443
preservation 79
quality 654
treating 818, 819
treatment 80
Hides, skins and leathers, protecting 153
HUEGEL, A. J., Obituary 440
Human collagen
heterogeneity 69
salt-extracted 70
Hydroxylysine, oxidation 657

Impregnated leather, curing of NCO-terminated polyurethane 703
Impregnation and finishing, surface phenomena 599
Indigo snake, cutaneous melanocyte system 235
International Fastness Tests Commission 235
International Union of Leather Chemists' Societies Physical Testing Commission 389
International Union of Leather Chemists' Societies Tenth Congress 283, 752

Iron and copper, determination in tannin 599
Isocyanates, —NCO group determination 138
Isodesmosine, structure 124
IVANY, J. L., Obituary 282

John Arthur Wilson Memorial Lecture for 1967 441

KANAGY, J. R., Biography 45
Karaglutin, from tannery wastes 227
KAWAMURA, A., Biography 647
KENNEDY, J. E., Biography 363
α-Keratin, effect of formic acid on structure 238
Keratin
  epidermal 283
  solubilization 652
  structure 660
Keratin-containing materials protection from insects 304
Keratin fibers, separation chemically unmodified 237
Keratin fractions, reactions 599
KHAN, A. Q., Biography 747
KORN, A. H., Biography 437

LASEK, W. F., Biography 523
Latex polychloroprene 133
Leather
  action of atmospheric agents 75
  aniline, finishing 71
  artificial 87, 88, 158, 159, 307, 308, 824
  artificial, porous coated 88
  as shoe material 230
  bag tanned, deliming 455
  bonding with nitrocellulose 389
  challenge of synthetics 460
  coloring 392, 394
  dressings 396
  dryer 822
  dulling composition 158
  dyeing 81, 393
  dyeing and printing 393
  effect of heat and moisture 240
  electrostatic change 384
  embossed 300
  embossing and decorating 539
  finishing 822
  frictional properties 283

Leather
greasing by solvent method 136
hydrothermal stability 448
impregnating 153, 539
impregnating and coating 818
impregnation 83
influence of metals 713
lubrication 393
machines for working 229
method of impregnation 151
moist, pebble graining 534
moisture permeation 115
Morocco 158
physical test methods 125
preserving agents 87
production of silvery suede 714
protecting from U. V. Rays 303, 818
resistance to flame 74
scuff resistant 77
shark skin 653
side upper influence of nonpolymeric modifiers 636
softening 535
spraying unit 131
stiffness 548
stretching and finishing 536
studies in the infrared 388
stuffing and after tanning 78
synthetic 82, 158
synthetic resin impregnated 666
treating 84
treatment in solvent medium 459
uncommon defect 286
uniform quality by automatic controls 235
waterproofing 77, 667, 668
water repellency 394
water-repellent treatments 162
water resistant 608
water vapor absorption and transmission 457
zirconium tanned 715
Leather analysis, change 128
Leather coating 158
Leather coating compositions 542
Leather defects, microscopic study 25

Leather drying, vacuum drying 660
Leather dyeing, developments last decade 458
Leather dyestuffs, produced in Romania 149
Leather factories, humidifying air 457
Leather finishes 605
  rubfastness 760
Leather finishing
  grain-strengthening agents 223
  pigment dispersions 131
Leather impermeability treatment 155
Leather lacquer 82
Leather laminates 82
Leather-like cloth 150
Leather-like composition 764
Leather-like material 300, 824
Leather machinery 229
Leather manufacture
  automation 715
  modernization and automation 758
  purity of collagen 709
Leather manufacture in drums, automatic controls 459
Leather mulling apparatus 815
Leather plumping process 543
Leather processing 820
  influence of Indian climate 813
Leather production 820, 821
Leather properties
  improving with lignin-based syntan 225
  methods of influencing 657
Leather quality
  influence of syntan mixture 289
  microscopic method 227
Leather science, analytical techniques 654
Leather substitutes 302, 602, 814
  method for producing 601
  new trends in footwear parts 288
  polyamide finishing 226
Leather surfaces, protection of 82
Leather treating composition 667
Leather-treating compounds 761
Leather treatment, alkyl dicarboxylic acid 298
Leatherboard 540

Leathers
control of vacuum drying 75
dyeing and finishing simultaneously 307
fancy, stability of embossing 147
lining and glove from low-quality sheepskins 123
protecting 77
soft, penetration of tans and fats 462
soft, reinforcing 308
synthetic 308
vegetable combination tanned, accelerated aging 655
Leathers filled with hexamethylene-tetramine, hide substance determination .. 463
Limed hides, decalcifying 390
Limed skins, preservation 704
Liming, determination of intensity 707, 708
Liming, in a drum 284, 383
Liming materials, trace element content 599
Liming process, effect of inorganic salts 72
Liming, studies in drum and vat 236
Literature survey, tannery effluents 194
LITTLEHALE, D. S., Biography 191
Livestock production, influence on leathers 238
Lubricating agents 307
Lubrication, with alkenyl succinic acid 162
Lysine in α-keratin, x-ray evidence 600

Machine, hide splitting 83
Mannich reaction 398, 408
Mannich reaction with malonic acid and formaldehyde 408
Masking action, salts of alpha-hydroxycarboxylic acids on chromium 757
MELLON, E. F., Biography 103
Metals, tanning potency 286
Methods, for water vapor permeability 285
Microclimate in footwear 310
Microporous materials 297
MILLER, T. H., Biography 694
Mineral tannages, pretreatment Mannich reaction 408
Molds, nonremovable spots 230
Molecular weight fractionation 532
Monomer, free, determination 137
Mullen Burst Test, variation of results over hide 63
Muskrat skins, dressing 133
MUTHIAH, P. L., Biography 279
Mycobacteriostatic composition 87
Myrobalans, better utilization 284

Myrobalans tannin, fixation 655
Myrobalans tanning extract, standardization 813

NAGHSKI, J., Biography 748
NAYUDAMMA, Y., Biography 280
Nitro emulsions, as protecting layer 385
Notes for contributors 2

Offal, tanning 130
Organosilicon compounds 86
Ox-bone, fluorescent components 233

Paddles, technical dimensions 71
Patent leather, PVC foil 757
PEARCE, A., Biography 694
Pelts
  preparing for tanning 535
  protecting 77
PETERSEN, E., Obituary 697
Phagocytosis in hair 651
Physical properties of leather, effect of Jawasee unhairing 454
Pickled pelts, determination of 2,4,6-trichlorophenol 294
Pickled skins, utilization of rejections 293
Pigskin, production 820
Pit tanning, detection 382
Plastics
  moisture permeation 115
  use in leather industries 145
Polyamides, combination with polymers 132
Polyesters 159
Poly-L-proline, ultraviolet optical properties 656
Polymers
  urethane 391
  vinyl chloride 390
Polyvinylchloride, plasticized 225
Poromeric material 297
Prekeratin, epidermal 283
Preservatives, prior to curing 286
Protein cross-linkages, effect of iodination 69
Proteins
  insoluble, enzymatic solubilization 661
  process of treating 601
  soluble, of skin 423
Protocollagen, characterization from embryonic cartilage 532
Pyrocatechol formaldehyde, acid catalyzed 462

RAISTRICK, A. S., Biography 280
Rat tail tendon, elongation 232
Raw hide and skin
effect of chlorotetracycline 285
influence of old salt 286, 814
REID, J. A., Biography 523
REIHSMANN, R. M., Biography 647
RFP process 284
Resin filling systems, evaluation 444
Resins, influence of nonpolymeric modifiers 636
Retanned leather, physical properties 270
Retanning process 821
Retanning, zirconium salt 599
Rollers, for sole leather 138
Rolling process for sole leather, parameters 149
Rubbers
kieselguhrs as fillers 139
new synthetic, properties 129
Rubber properties, addition of polyethylene 128
Rubber soles, acid resistant 129
RUSSELL, A. E., Biography 437

SCHMITT, R. G., Biography 45
SELIGSBERGER, L., Biography 363
Seminar at Madras 649
Shark enamel, noncollagenous nature 388
Shearling leather, effect of natural fat on strength 443
Shearlings, moisture sorption, glutaraldehyde-chrome-tanned 443
Sheep fur pelts
fermentation production 128
strengthening with polymers 132
wear resistance 129
Sheepskins
chrome tanned mechanical properties 125
preservation 592
tanned, action of aging and pickle 705
Sheet materials, fibrous, non-woven 544
Shoe manufacture
most suitable material 74
new materials and processes 150
quality of leather for 704
sole attachment 71
Shoe polishes, compatibility with finishes 132

Shoe upper leather
chrome-tan, comparison of methods 454
wear in cold and snow 456
Shoe upper material, preparation by collagen reaggregation 446
Shoemaking materials 285, 293, 652
Shoes, leather substitutes, trends 128
Shoulders, better utilization 284
Shrinkage phenomenon 292, 653
Shrinkage, prevention 541
SHUTTLEWORTH, S. G., Biography 695
Side leather
fiber structure 25
white, improved quality 659
Side-upper leather
Cr_2O_3, fat and pH 222
incidence and predictability of pulpiness 4
weakness and pulpiness 4
Skin
mechanical property, effect of sulfhydryl reagents 232
soluble proteins 423
Skin collagen, irradiation 237
Skins
defatting 662
dewooling 654
membranous tissues 651
preservative 395
Soaking treatment, influence of streptomycin 286
Soay sheep, coat structure 235
Sodium borohydride, fine hair removal 181
Sole leather
abrasion tests 662
dynamic water permeability 148
extra-rapid process 459
hygiene 147
light colored 711
moisture content in different conditions 705
properties on rolling and wetting 706
putting-out machines 228
rapid and traditional, comparative studies 292
retanned with mineral tannages 270
tanning 78
tanning with mimosa 75
tempering with steam 221

Sole leather
water proofing 126
Sole leather manufacture, drum and pit liming 70
Soles
attachment strength 148
chrome and vegetable, comparative study 293
rubber mixed with butadiene-styrene resins 123
Soluble collagen
denaturation and degradation products 225
in leather fiber materials 295
renaturation 287
separation of degradation products 144
Solvent tannage 223, 707
Solvents, danger in shoe manufacture 705
Stain, for sweat pores 651
Stiffness test 548
Strength tests, correlation between 468
Sulfides, determination 659
Sulfitoles, new fatliquoring agents 709
Surface active agents 706
Sweat residues, determination of properties by 597
SWEENEY, D. M., Biography 363
Syntan
chemical composition 222
development without free phenols 143
Synthetic leathers, production 763
Synthetic shoe upper materials, water vapor absorption and transmission 457
Synthetic substances, in alum tanning 305
Synthetic suede, method of making 534
Synthetic tanning materials 709

TANCOUS, J. J. Biography 808
Tannages
alum combination 291
vegetable-syntan 595
Tannery effluents
elimination of sulfide 684
literature survey 194
Tannery waste, activated sludge treatment 733
Tannery waste waters, depollution 238
Tannin, bark of Acacia nilotica 597
Tanning additives 83
Tanning agent 604, 664, 821
Tanning and denaturation, relation between 529

Tanning, aryl sulfonic acids 383
Tanning extracts
ferric oxide determination 131
fluorescence 704
Tanning industry, microbiological processes 658
Tanning material
artificial 305
pyrocatechol and sulfones 463, 708
zirconium-chromium combination 595
Tanning machinery 822
Tanning method 390
Tanning process 79, 541, 664, 665, 666, 820, 822
aluminum tartrate 541
two bath 703
Tannins, condensed and hydrolyzable, reaction with collagen 600
Tannins of India 814
TAYLOR, M. M., Biography 438
Tendon
collagen levels 236
membranous tissues 651
Terminalia catappa, polyphenols of 655
Tests, strength 468
THORSTENSEN, T. C., Biography 192
TRESFORT, C. M., Obituary 577
Tropocollagen
amino aldehyde 455
cross-linking 386
Tropocollagen molecule, melting temperature 531
Tropocollagen solutions, helix-coil transformation 386
Tung oil 707
Tyrosine, determination by ultra-violet 714

Ultra-violet absorbance by tannin 670
Unhairing
enzymatic process 447
interpretation of mechanism 444
lime-sulfide processing 233
oxidation effect on tanning 141
rapid, Hoechst Oxidative 464
Unhairing process 155
Upper leather
behavior towards water 221
effect of splitting and shaving 457

Upper leather
from goat skins 285
from reject E. I. sheepskins 814
new film formers for finishing 130
new methods of evaluating 598
perspiration damage 294
protected by nitro emulsions 385
pulpiness 781
weakness 781

Vacuum drying 236
Vegetable tannin
determination by ultra-violet 670
leaching systems 814
saccharide components 140, 142
Vegetable tanning
composition of blends 656
effect of glutaraldehyde 444
role of basic groups 234
Vegetable tanning materials, spectrophotometric studies 145

WADA, K., Biography 647
Washable leather 301
Waste liquors, purification 596
Water binding, in hide materials 334
Water pollution, turning point 811
Water repellency, porous and fibrous material 533
Water vapor permeability, footwear 310
Waterproofing composition 533
Waterproofing leather 298, 544
Waterproofing methods, comparison 445
WELLS, P. A. Honored by Philadelphia Agriculture Society 526
WILLARD, H. J., Biography 45
WILLIAMS-WYNN, D. A., Biography 695
WINDUS, W., Biography 46
Woodfordia fruticosa 655
Wool from sheepskins, removing 765
Wool, oxidized, amino acid sequence 657

Zirconium compounds, organic 160
Zirconium, determination in leather 712
Zirconium salts, retanning with 71
Zirconium tannage 232
Zirconium tanning compounds, shoe sole- and upper-leather production 461
